

DDPM Exam 2 — 30-Minute Final Cram Sheet (Modules 4 & 5)

Operational Parameters & Scope Rules

- **Confirmed Operational Parameters:** 45 questions | 60-minute duration (3:30 PM–4:30 PM IST, Sun 16 Aug) | No negative marking (answer 100% of questions).

I. Top 5 Core Frameworks (Strictly Capped: 5 Frameworks)

- **SERVQUAL (5 Service Quality Dimensions - RATER)** (M04-T02,)
- Reliability (dependable delivery), Assurance (employee courtesy/trust), Tangibles (physical/digital UI assets), Empathy (individualized care), Responsiveness (prompt service). Gap = Perception (P) - Expectation (E).
- **NIST Cybersecurity Framework (NIST CSF v2.0 - 6 Core Functions)** (M05-T03,)
- **Govern (GV)** (new 6th function in v2.0), **Identify (ID)**, **Protect (PR)**, **Detect (DE)**, **Respond (RS)**, **Recover (RC)**. Zero Trust: "Never trust, always verify."
- **ATAR Product Adoption Model** (M04-T03,)
- Awareness × Trial × Availability × Repeat. Calibrated Trial = $(0.80 \times \text{Top Box \%}) + (0.30 \times \text{Second Box \%})$.

II. Top 13 High-Yield Concept Names (Strictly Capped: 13 Concepts)

- **Data-Driven Attribution (DDA)** (M04-T05): Machine learning sequence analysis; legacy rules-based models retired in GA4.
- **U-Shaped & W-Shaped Attribution** (M04-T05): U-Shaped (50% First Touch, 50% Lead Creation, 0% Middle); W-Shaped (30% First, 30% Lead, 30% Opp Creation, 10% Middle).
- **Top 2 Box (T2B) Discounting** (M04-T03): 80% of Top Box ("Definitely Buy") + 30% of Second Box ("Probably Buy").
- **Level of Detail (LOD) Expressions** (M05-T04): FIXED (ignores view dimensions; executes before dimension filters), INCLUDE/EXCLUDE (executes after dimension filters).
- **Commitment-Trust KMVs** (M04-T02): Relationship Commitment and Trust as central Key Mediating Variables in relationship marketing (Morgan & Hunt, 1994).
- **Vertical vs Horizontal Channel Conflict** (M04-T05): Vertical (different levels e.g. manufacturer vs retailer); Horizontal (same level e.g. distributor vs distributor).
- **Next-Best-Action (NBA) Engine** (M05-T01): Real-time machine learning decisioning to serve optimal offer/action at specific user touchpoints.
- **Privacy by Design (PbD)** (M05-T03): Proactive privacy embedded as default setting throughout product engineering lifecycle (7 principles).
- **Zero Trust Architecture (ZTA)** (M05-T03): Explicit verification, least privilege access, assume breach posture (NIST SP 800-207).
- **Price Discrimination Tiers** (M04-T06): 1st Degree (personalized WTP), 2nd Degree (self-selecting versioning/volume), 3rd Degree (segmented groups).
- **Customer Lifetime Value (CLV)** (M05-T02): $CLV = (\text{ARPU} \times \text{Gross Margin \%}) / (\text{Monthly Churn Rate})$. Benchmark CLV / CAC ≥ 3:1.

III. Top 10 Critical Exam Traps (Strictly Capped: 10 Traps)

- **GA4 Attribution Model Retirement:** GA4 retired legacy rules-based models (First Touch, Linear, Time-Decay, Position-Based) in mid-2023. GA4 supports ONLY **Data-Driven Attribution**, **Paid and Organic Last Click**, and **Google Paid Channels Last Click**.
- **Adobe Marketo Measure U-Shaped Intermediary Credit:** U-Shaped attribution assigns **50%** to First Touch and **50%** to Lead Creation Touch, giving **0%** to intermediary touches. Do not assign equal split to middle touches in U-Shaped!

- ■ **Top 2 Box Discounting Factors:** Top Box intent is discounted to **80%** and Second Box intent is discounted to **30%**.
Never sum them 1:1 without discounting!
- ■ **Tableau Order of Operations for LODs:** FIXED LODs execute **BEFORE** Dimension Filters; INCLUDE and EXCLUDE LODs execute **AFTER** Dimension Filters.
- ■ **NIST CSF v2.0 6th Function:** NIST CSF v2.0 added **Govern (GV)** as the 6th core function alongside Identify, Protect, Detect, Respond, Recover.
- ■ **Vertical vs Horizontal Channel Conflict:** Vertical conflict occurs across different channel levels (manufacturer vs retailer); Horizontal conflict occurs between competitors at the same level (retailer vs retailer).
- ■ **Confirmed Operational Parameters:** 45 questions in 60 minutes (3:30 PM–4:30 PM IST), no negative marking (answer 100% of items).
